Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If no period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED. (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 22 September 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Objections

1. Claim 20 is objected to because of the following informalities:

In claim 20, line 5, "polarization a first of the two" should be changed to – polarization of a first of the two --.

In claim 20, line 10, "polarization a second of the two polarizing filters" should be changed to –polarization of a second of the two--.

Appropriate correction is required.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

4. Claims 10, 11 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ma et al., (Ma), USPAT 6,344,887.

5. Ma discloses and shows in Fig. 6A, a liquid crystal display device comprising:

- a cholesteric polarizer (260) (applicant's first image separating means) for separating the light illuminated from a light source (630) depending on a direction of polarization;
- light modulating means (210) having liquid crystals sealed within a pair of transparent electrode plates, the light modulation means modulating the intensity of light transmitted through the first image separating means;
- another cholesteric polarizer (250) (applicant's second image separating means) for separating the light transmitted through the light modulating means depending on the direction of polarization;

As to clamping one of the image separating means and the modulating means by a pair of substrates is common and known in the art and thus would have been obvious to avail a proven technique.

Accordingly, claims 10 and 11 would have been obvious.

As to claim 20, using the liquid crystal display in a stereoscopic display is considered as intended use and thus would have been obvious.

Allowable Subject Matter

6. Claims 1-9 are allowed.

7. Claims 12-19 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Response to Amendment

8. The declaration filed on 09/22/03 under 37 CFR 1.131 has been considered but is ineffective to overcome the USPAT 6,344,887 reference because the declaration is not signed by all of the inventors.

Accordingly, the rejection of claims 10, 11 and 20 based on USPAT 6,344,887 has not been withdrawn and thus maintained.

Conclusion

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
